Please ask about product availability

We are a specialist Spanish company engaged in the manufacture and distribution of healthcare products.

We provide solutions in hygiene, antiseptics, nursing care, protection equipment and medical devices intended for healthcare professionals, companies and users.

We began our journey with the manufacture of soapy sponges and a line of nursing products, growing until reaching more than 500 products, which has let us position ourselves in the hospital and geriatric field in more than 60 countries worldwide.

Founded in 1991

Over **30 years** serving you.

Extensive portfolio

More than **500 references**.

Manufacturing

More than **8,000m2** with **highly automated manufacturing** lines.

Exports

To more than **60 countries** since 1993.

Our team

Diverse, plural and trained, from more than 14 countries.

Supply

More than **5,000m2** distributed over **two warehouses**.

Company policies

Satisfaction

Satisfy workers and the users of our products by improving their quality and safety.

Commitment

Consolidate and maintain relationships with stakeholders that are relevant to the growth of **CV Médica**.

Quality

Strictly comply with all the legal and regulatory requirements that apply not only to **CV Médica** as a company, but also to its products.

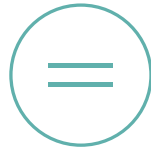

Constant improvement

Ensure that every employee is involved in improving our productivity, competitiveness, quality, prevention, asset management and respect for the environment.

Reliability

Maintain our customers' trust by satisfying their needs quickly and flexibly.

Equality

Our company is firmly committed to the well-being of our employees. As a result, it promotes measures such as equality and training plans that promote equal access to opportunities, and maintaining a suitable work environment.

Quality certificates

ISO 9001: 2015 Quality Management Systems.

ISO 13485: 2016 Medical devices. Quality Management Systems.

ISO 22716: 2008 Cosmetic Products. Good Manufacturing Practices (GMP).

PVC-free

With aloe vera extract

Hygiene products

Full range of products for personal hygiene. The formulation of the products in this range respects the skin's neutral pH to help keep it in optimum condition.

Sponges

CV Médica manufactures two types of sponges - fibre and foam - both impregnated with dry soap with a neutral pH of 5.5.

Fibre sponges with soap

Dispobaño Aloe Vera

Weight: 100g/m²

Dimensions: 20x12 cm

With aloe vera extract

Ref.	Units/Pack
104*	24

Dispobaño

Weight: 100g/m²

Dimensions: 20x12 cm

Ref.	Units/Pack
100*	24

Instructions for use

Take a sponge and slightly dampen it.

Squeeze several times until foam appears.

Lather and rinse with water.

It is not recommended to immerse the sponge in water, as the soap can be lost.

40011	8	288

Nursing care

Products that offer the necessary functionality, with unbeatable efficiency for healthcare professionals and maximum comfort for the user.

Immobilization

Limb immobiliser

For restless patients who risk stopping treatment, injuring themselves or jeopardising the integrity of the affected area. With an anatomical design tailored to the wrists and ankles, it includes a closing system to adjust the immobiliser to the extremity with strips that can be attached to the bed.

Limb immobiliser with hole

Material: Non-woven fabric with foam interior.

Colour: White.

Features:

- Strong fastening through hole

Ref.	Units/Box
1090303	80

Quick-release limb immobiliser

Material: Non-woven fabric with foam interior.

Features:

- With velcro closure for quick opening

Ref.	Units/Box
1090110	60

Safety limb immobiliser

Material: Non-woven fabric with foam interior.

Features:

- With velcro closure and ring for greater safety

Ref.	Units/Box
1090100	80

Comfort safety limb immobiliser

Material: Cotton interior and padded exterior.

Features:

- Velcro closure and ring for greater safety

Ref.	Sizes	Units/Box
1000202	L	60
1000405	S	60

Hand and paediatric immobilisers

Immobiliser with hand protection

Material: Breathable mesh on the back of the hand and soft, padded fabric for the palm.

Features:

- Recommended for hand surgery and immobilisation of patients
- Provides finger clearance and offering the best posture for the hand and its immobilisation

Ref.	Units/Box
1090300	16

Paediatric - neonatal limb immobiliser

- Padded material, very soft on the skin, with velcro fastener

Ref.	Units/Box
1090150	120

Elbow immobiliser for children

Material: Exterior in non-woven fabric, interior with wooden depressor.

Features:

- Comfortable, lightweight and breathable
- Adjustable with velcro closures

Ref.	Sizes	Units/Box
1060310	M	24
1060300	S	24

Immobilisers and slings

Arm and shoulder immobiliser: restrains the arm and shoulder with an adjustable thoracic strip.

The large size of the pouch for the forearm holds the wrist, includes a thumb strap for maximum comfort. It can be used as a sling.

1060100	XS	30

IMPROVED PRODUCT

Comfort perineal fastening belt

Breathable perineal belt for perfect chair support.

Ref.	Units/Box
1070210	12

Normal support vest

Lightweight, highly resistant breathable material.

Features:

- Efficient and secure support

Ref.	Sizes	Units/Box
1015670	L	10
1015660	M	10
1015650	S	10

Abdominal support belt

Foam abdominal belt for bed or chair support.

Ref.	Sizes	Units/Box
1070150	L	12
1070100	M	12

Protection and anti-bedsores

Protective elements to prevent the appearance of bedsores in patients who have to undergo prolonged periods of immobilisation or reduced mobility.

Comfort elbow-heel protector

Features:

- Maximum comfort due to its foam padding and cotton lining

Ref.	Units/Box
1000610	60

Heel-foot protector

Features:

- Full protection of the foot, protects the heel, with non-woven fabric and fibre material
- Breathable

Ref.	Units/Box
1080250	20

Elbow heel protector

Features:

- Its polyester fibre filling distributes pressure evenly, protecting the joint

Ref.	Characteristics	Units/Box
1080200	Standard	36
1080210	Reinforced	36

Open elbow-heel protector

Features:

- The low-friction resistance coating makes it difficult to remove the protector

Ref.	Dimensions	Units/Box
1080290	Short	40
1080280	Long	20

Anti-bedsore cushions

Dotted anti-bedsore cushion

The dotted anti-bedsore cushion is used to prevent bedsores in patients who have to stay in a chair for a long time.

Features:

- Made of cotton and silicone fibre. Comfortable and breathable

Ref.	Dimensions	Units/Bag
5020100	48x48 cm	1

Anti-bedsores

Cushion covered in synthetic soft fibre to prevent bedsores in patients who have to remain seated for a long time.

Available in different shapes that adapt to the needs of the patient or chair type.

Features:

- Made of cotton and siliconised fibre. Comfortable and breathable

Ref.	Characteristics/ dimensions	Units/Bag
5010001	Horseshoe (44x44 cm)	1
5010003	Ring (Ø 49 cm)	1

Eye protection and coverings

Eye protector

Eye protection for phototherapy to prevent possible injury in paediatric and newborn patients.

Features:

- Adjustable to cranial perimeter and head height

Ref.	Sizes/cranial perimeter	Units/Box

Ref.	Sizes	Units/Box
1040920	L	10
1040910	M	10
1040900	S	30

Supports

Fastening elements to meet needs in an efficient and functional manner.

Catheter-probe support

This support is recommended for securely fastening probes and catheters to the limbs.

Features:

- Practical and easy to use

Ref.	Units/Box
1070570	30

Telemetry monitor holder

Suitable for transporting telemetry devices and monitors. Practical and convenient system.

Features:

- Standard measurements

Ref.	Units/Box
1070600	25

Obstetrical belts

BELTY is a new generation of belts for attaching foetal monitors. They are single-use and hygienic, thus preventing nosocomial infections. It helps to reduce the health care professional's workload, guarantees a proper foetal heart rate signal and improves the experience and comfort of mothers.

Belty maternity support belts

Belty helps to provide excellent care and makes the work of healthcare professionals easier.

Note:

- Comfortable and convenient for mothers of use.
- Avoid marks and injuries
- They are suitable for in-water monitoring
- The closing mechanism can be removed and attached, and the transducer can be repositioned
- Compatible with any transducer on the market
- Helps to reduce adjustment and cleaning costs and optimises the times of staff
- Enhances the safety of mothers and health care professionals
- Prevents HAI (Healthcare-Associated Infections)

Ref.	Units/Pack	Units/Box
